

Pollinator Hunt

Go on a hunt to find ways that pollinators are our heroes! There are lots of places you can “hunt” and find ways that pollinators help us; your home, school, grocery store, in your closet and on your table. Write a way that pollinators help you on each list.

Dairy foods I like to eat:

Handwritten list area for dairy foods with 10 horizontal lines.

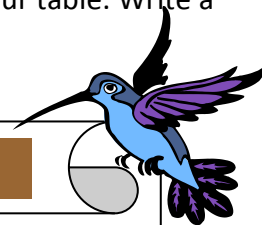

Hint: Cows eat plants that are pollinated.

Clothes in my closet:

Handwritten list area for clothes with 10 horizontal lines.

Hint: Many clothes are made from cotton, a plant that is pollinated.

What I have ate today:

Handwritten list area for food eaten today with 10 horizontal lines.

Hint: Pollinators help pollinate more than 1,200 crops.

In my neighborhood:

Handwritten list area for neighborhood items with 10 horizontal lines.

Hint: Most of the flowering plants all over the world are pollinated by animals.
